

Top Priority Research Fields of Okayama University

In 2018, Okayama University selected "Priority Fields" as strengths that will pave the way for next-generation research, and has now selected "Top Priority Research Fields" that further deepen the "Priority Research Fields" (July 19, 2023, Education and Research Council Meeting). The subject areas are as follows.

More details will be announced when the application materials are released (scheduled for mid-August).

Top Priority Research Fields of Okayama University

- ① Crop and plant science fields
- ② Healthcare fields
- ③ IT and electronics fields
- ④ Planetary science and astrophysics fields
- ⑤ Innovative Materials fields
- ⑥ Archaeology fields
- ⑦ Interdisciplinary research related to (1) to (6), service and social system design
