Dear OU Fellowship Recipients

Mandatory registration in researchmap (request)

Vice Executive Director
Norito SATOH

Regarding the above-mentioned matter, the University Management Strategy Meeting held on August 21, 2023, decided that the recipients of the "Okayama University Science and Technology Innovation Fellowship (OU Fellowship)" would be required to register with "researchmap," a database-type researchers' directory operated by the National Institute of Science and Technology Agency (JST).

The database can manage and disseminate research achievements such as papers, lectures and oral presentations, books, industrial property rights, works (works, etc.), and social contribution activities, as well as various tools such as research communities for research activities, which are also utilized by the University's faculties.

Okayama University treats graduate students as "researchers" and has made it mandatory for them to register and update their information in the database in order for them to acquire the basic attitude as researchers to compile and disseminate their own research activities.

Therefore, OU fellowship recipients are requested to register by the registration deadline. Please use the "Inquiry Form" of JST for inquiries about registration in the database.

1. Registration deadline

Thursday, November 30, 2023

2. To whom ?

Okayama University Science and Technology Innovation Fellowship (OU Fellowship)
Recipients

3. How to register in researchmap

Please visit the JST registration page below to register.

<https://researchmap.jp/public/account>

4. Reference materials

Please refer to the attached PDF file prepared by Okayama University.

Also, please refer to JST's support page and other pages below.
